

ONE PEEK • ONE VOICE • TWO PADS

SHAPE SHOUT!

The blind-drawing showdown where one of you memorizes a secret picture, then draws it *while shouting instructions* — and real-world words are strictly illegal.

NO "HOUSE." NO "ICE CREAM." SHAPES ONLY.

10_s

TO MEMORIZE THE CARD

60_s

TO DRAW & SHOUT IT

-1

PER FORBIDDEN WORD

YOU'LL NEED → **2 pads** • **2 markers** (no erasing — commit!) • **1 barrier** or back-to-back chairs • **1 timer** • a room full of judges

1

Pair up & wall off

Each team is a **Guide** and an **Artist**, sitting back-to-back or with a barrier between the pads. From this moment on, **you never peek at each other's paper**. Markers up.

2

The 10-second peek

The room goes silent. The Guide flips the top shape card and gets **exactly 10 seconds** to study it – not just the shapes, but the **positions**: centered or offset? Touching or overlapping? Then the card goes face-down. No second looks. Ever.

3

The 60-second chaos

Timer starts. The Guide **draws the picture from memory** on their own pad **while shouting step-by-step instructions**. The Artist draws only what they hear – questions allowed (“HOW BIG IS THE CIRCLE?!”), peeking never.

4

Markers down & reveal

At the buzzer, both markers drop. Flip the card and line up all three: the **original**, the **Guide's drawing**, and the **Artist's drawing**. Prepare to be humbled.

5

Score it & swap

Score with the table below, then **swap roles every round** so both of you get to suffer equally. Highest grand total after the final round takes the Telepathy Trophy.

Category	How it works	Points
Guide's memory	Each element the Guide drew correctly on their own pad (right shape, right place).	+1 each
Precision	Each element on the Artist's pad that matches the Guide's pad – did the words work?	+1 each
Vibe vote	The room compares the Artist's drawing to the original card and rates it.	1–5
Penalties	Every real-world word the Guide blurts out (“house!”, “sun!”, “roof!”).	-1 each

SAY THE SHAPE, NOT THE THING.

Forbidden

Real-world analogies. Your brain will beg. Do not listen.

~~"Draw a house with a chimney."~~

~~"It's an ice cream cone!"~~

~~"Make a smiley face at the bottom."~~

~~"Like a lollipop... a tree... a SNOWMAN!"~~

Allowed

Pure geometric & positional language. Only the Open Book.

"Large square, dead center of the page."

"Triangle on top, sharing the square's top edge."

"Circle inside, touching all four sides."

"Line from the bottom-left corner, diagonally down."

EVERY SLIP = -1 POINT

Judges: keep a tally. Guides: fight your own brain. That's the game.
